

JUNIOR YEAR

When's the Best Time to Take the SAT?

The SAT and other College Board tests are offered several times a year. Most students take the SAT for the first time during the spring of their junior year and a second time during the fall of their senior year.

SAT Subject Tests

Should you take an SAT Subject Test?

The SAT Subject Tests offer you an additional opportunity to show colleges what you know and what you know you can do.

Many colleges use the SAT Subject Tests for admission, for course placement, and to advise students about course selection. Some colleges specify the SAT Subject Tests that they require for admission or placement; others allow applicants to choose which tests to take.

What does a fee waiver cover?

Your SAT fee waiver covers **100% of the registration fees** for a single test date.

You can use up to **two waivers for the SAT** and up to **two waivers for the SAT Subject Tests**. That's a **total of four** fee waivers (up to three subject tests per test date).

Everyone gets four free score sends with registration. When you use a waiver, you can also send four additional score reports (worth a total of \$44) to the **colleges of your choice** at any time for free.

Most colleges charge an application fee. As a fee waiver recipient, you can obtain up to four requests to **waive college application fees** from your counselor. Many four-year and two-year colleges accept application waivers – view a list of schools that participate in the College

JUNIOR YEAR

Application Fee waiver process. College is totally within your reach, and application waivers can help you get there.

Register for the SAT using your fee waiver

Instructions for registration are posted on the Guidance section of AMSU's website.

During registration:

Indicate that you are paying with a fee waiver and enter the entire 12-digit code from your fee-waiver card. If you are registering by paper don't forget to enclose the fee-waiver card in the envelope.
